## 5. FIRE FIGHTING MEASURES

### FLAMMABLE PROPERTIES:

Flash Point: >200 F                      Test: SETA CC. ASTM D-3278  
Explosive Limits:    LEL: N/A                      UEL: N/A

EXTINGUISHING MEDIA: Use procedures appropriate to surrounding fire..

SPECIAL PROCEDURES & UNUSUAL HAZARDS: Not Combustible under test conditions, however large spills in a confined area may produce combustible vapors. Use water to deluge spill and cool containers.

FIREFIGHTING INSTRUCTIONS: Firefighters should wear NIOSH approved, positive pressure, self-contained breathing apparatus and full protective clothing when appropriate.

## 6. ACCIDENTAL RELEASE MEASURES

SMALL SPILLS: Soak up small spills with inert solids. Use suitable disposal container. May be neutralized with vinegar and discharged to local sewer if permitted.

LARGE SPILLS: Limit access to area. Dike and contain spill with inert material (sand, earth, etc.) and transfer the liquid and solid separately to containers for recovery or disposal. Keep spill out of sewers and open bodies of water. CAUTION: Floor may become slippery.

## 7. HANDLING AND STORAGE

Handle according to good manufacturing and warehousing practices. Keep containers tightly closed when not in use. Use good personal hygiene practices. Wash hand before eating, drinking, smoking or using toilet facilities. Promptly remove soiled clothing and wash thoroughly before reuse. Store only in tightly closed containers not made of aluminum. Always add product to water when making solutions. Do Not Freeze.
